The Endowment

▶ As of 6/30/2006, the market value of our pooled investments is **\$140,400,000.00**.

The College's enduring commitment to providing an exceptional education for women has been insured in part by a strong endowment. Through the generosity of many foresighted alumnae, parents, friends, and organizations, over 450 endowments and named funds have been created in perpetuity to support the College's faculty, students, and programs. Gifts for endowment can fund professorships, scholarships, faculty development, or specific program areas such as the library, global studies, or technology.
